#### RICO co-conspirators

Motion for Temporary Restraining Order against Primary RICO defendants and RICO Co-conspirators in preparation for a preliminary injunction.

**i. 1**

- **Pro Se Plaintiff Darryl Wright respectfully moves to an ex parte hearing, pursuant to Title 18, United States Code, Section 1345 and 2521 and Rule 65(b) of the Federal Rules of Civil Procedure, for a Temporary Restraining Order injunctive relief against IBM and Taco Mac and the above co-conspirators with order to show cause why a permanent Preliminary Injunction should eventually be granted, and other ancillary relief. If the court requires additional arguments beyond the materials submitted in support of this motion. Plaintiff also request the court schedule an ex parte hearing on or before September 23 2020 according to FRCP rules.**
- **RICO defendants and co-conspirators collectively conducted and violated federal Racketeering Influenced and Corrupt Organization Act, 18 U.S.C. 1961 et seq. ("federal RICO"), and Georgia's Racketeering Influenced and Corrupt Organization Act, O.C.G.A 16-14-1 et seq. ("Georgia RICO"), as more fully set forth below.**
- **This is a federal and Georgia Racketeering Influence and Corrupt Organization ("RICO") action for fraud on the US justice system and obstruction of justice during the normal process of**

filing a civil lawsuit. Defendants use a lawsuit prevention protection racket service designed and orchestrated by law firms and their lawyers then executed by foot soldiers their investigators. This service is finance by a US fortune 500 company defendant IBM and to a lesser extent franchise restaurant owners Taco Mac over a 16-year period.

- This is a RICO civil action with organize crime allegations by defendants and co-conspirators who used or aided and abetted a law firm's service sold as a lawsuit prevention protection racket to prevent, in perpetuity, plaintiff and family from accessing the US court system to stop the persistent felony criminal crime wave surrounding plaintiff and family in and out of their home.

- **Ex parte Hearing Required**

- The primary reason for the ex parte hearing is to discuss this case and case 1:19-CV-05213. Plaintiff request a temporary restraining order against primary RICO defendants IBM and Taco Mac and the above listed co-conspirators. To permanently end the 16 years of incessant 24/7 unlawful surveillance in and outside his family's home and the constant relentless perpetual felony criminal crime wave surrounding plaintiff and his family. Primary Rico defendants and co-conspirators have no right to criminally surveil plaintiff and family inside and outside their home. They have used surveillance to plot past, present and future crimes. Together they are simply a criminal racketeer

enterprise and should be treated as such by this court under the US and Georgia RICO organize crime RICO statutes. RICO defendants and their lawyers are the architectures, constitutors, and orchestrators of a professional criminal enterprise described as a lawsuit prevention protection racket for a 16-year period related to plaintiff and family using street gang or mob tactics to shield their clients from legitimate lawsuits at any cost by committing any crimes imagined. Defendants and lawyers are deliberate lawbreakers no different than a street gang with gang leaders or mob bosses financed by a US fortune 500 company IBM and smaller size company Taco Mac with persistence annual revenues to finance their criminal enterprises to prevent lawsuits indefinitely.

- During the ex parte hearing, we also hope to discuss the forthcoming injunctive relief to allow plaintiff to assemble his RICO counsel team to develop a thorough RICO federal complaint detailing all civil and criminal offences over a 16 year period, vital and essential subpoenas and depositions, affidavits, expedited discovery, the attorney client privilege crime-fraud exception for the law firms and lawyers, private investigators who sold their clients a criminal and illegal service we are calling a “lawsuit prevention protection racket” which was designed and orchestrated to shield wealthy clients from legitimate lawsuits and an eventual jury trial in a court of law.
- Due to the egression nature of the crimes outline in this motion, Pro Se plaintiff Wright does not want the court to rule on this temporary restraining order motion until critical and vital subpoenas and depositions have been taken by a US Attorney.

Some of the international and federal crimes planning were done in the United States then executed abroad on a US citizen which is against US law.

- **The Relief Plaintiff is Asking for from this court**
- Plaintiff is asking the court to force RICO defendants to disclose and remove of all surveillance devices in or around plaintiff's family home, disclose and remove all illegal wire taps from his family home phones, disclose and remove of all tracking or hacking devices or software on plaintiff's home networks or computers or electronics devices, disclose and remove of all tracking apps from all home electronic devices or software on plaintiff family's electronics devices both home or mobile devices, disclose and remove of all tracking devices on plaintiff family automobiles, disclose and remove of all drug injection devices in plaintiff's home used to drug him daily, disclose and remove of all torture devices used on plaintiff and family in his home or automobiles, disclose and remove all hacking and tracking apps from plaintiff' wife's work laptop(owned by Anthem), disclose of all plaintiff's neighbors who assisted in this surveillance and monitoring scheme, disclosure of the 24/7 monitoring site and its personnel where plaintiff and family were illegally surveilled for years. Surveillance personnel will have to be disposed for testimony.
- **Origins of the criminal racket against plaintiff**

- For 16 years, primary RICO defendants have finance and unleashed a Professional Criminal Enterprise(PCE) lawsuit prevention protection racket to intimidate, discourage, delay or thwart legitimate lawsuits against RICO defendants. Client's pays the law firm a perpetual retainer then the law firm pays the criminal enterprise racket to criminally intimidate, harass, discourage or threaten plaintiffs from filing lawsuits. Clients pay the lawsuit prevention protection racket instead of allowing the dispute to be settled and decided in court by a jury.
- To do this, the lawsuit prevention protection racket deploys tactics used by criminal racketeering street gangs or mobs to prevent plaintiffs from accessing counsel of choice. If the future lawsuit will lead to damaging publicity or an enormous reward, the criminal enterprise lawsuit prevention protection racket is paid exorbitant and long-term fees to prevent plaintiff's case from ever reaching the US court and jury. And if the plaintiff somehow arrives in court with proper counsel, they have criminal solutions for that too. As the court will see in this temporary restraining order, in a future federal complaint and discovery, this is a very lucrative service for rogue law firms to offer to their wealthy clients with limitless funds from their successful businesses. The client says to the lawsuit prevention protection racket just make the lawsuits go away and we will pay you as much money as required and for as long as possible to prevent the lawsuit from reaching a jury.
- Nowhere in the US criminal or civil codes gives RICO defendants and their co-conspirators a constitutional right to perpetually

conspire, plot and violate US RICO criminal statutes and other international, federal, state and local statutes to protect themselves from legitimate lawsuits. There is no legal reasoning by any US court or US statute that allows an organized criminal racket to shield themselves from legitimate lawsuits using a lawsuit prevention criminal protection racket financed by RICO defendants using their legal business funds. In other words, they have, over years, been financing a money laundering criminal enterprise to prevent lawsuits-a service sold by their lawyers. Now that they have gotten caught this lawsuit is here in court today to enforce US criminal and civil statutes against them and stop this felony criminal crime wave against plaintiff and his family.

- This court has no legal or legitimate right or reasoning to ignore this criminal behavior or allow it to continue or sanction future criminal behavior brought to this court's attention. The criminal crime wave surrounding plaintiff and family must be stopped.
- **Continued Irreparable Harm to Plaintiff and Family's life for 16 years and ongoing**
- Pro Se plaintiff Wright is here in court for relief to reclaim his family's home, his family's privacy, his honor, his dignity which has been irreparably harm for 16 years and is presently being irreparably harm by a relentless lawsuit prevention protection racket criminal racketeering enterprise we call a Professional

**Criminal Enterprise (PCE).** By close examination, this enterprise is a RICO lawsuit prevention protection racket that has daily and for years unlawfully surveilled, stalked, criminally defamed, spied on, filmed, drugged, tortured and psychologically traumatize plaintiff and family. This lawsuit prevention protection racket has been financed by RICO defendants IBM and Taco Mac's using legal revenues over a 16-year period. RICO defendants have laundered those funds into a perpetual sustaining organize crime racket and will continue to do so until this court cease all criminal activity. We suspect the RICO co-conspirators use these type of services too since they willing and deliberately aid and abet the criminal enterprise.

- During the 16 years, plaintiff has been psychological traumatize, drugged and tortured in his at home, at work, hotel rooms, condos and cruise cabins and even at friend's home. Plaintiff has also sustained and been hospitalize for two strokes do to stress, torture, drugs, psychological trauma and experiments being tried on him. The first stroke was at IBM's River Edge complex where an ambulance was required to take him to Northside Hospital. The second was at home where his wife took him to Well-Star Hospital for treatment. Both times the diagnosis by his Vascular Neurologist was a TIA or minor stroke due to stress. After a battery test, MRIs and CAT scans, nothing was physically found to cause the symptoms except stress. Plaintiff has no history of high blood pressure, heart disease or stress before RICO defendants unleashed their lawsuit prevention protection racket on plaintiff and family.

- All plaintiff friends have been coerced, intimidated, threaten or extorted to work against him over the years. Some of those relationships go as far back as 50 years. After this lawsuit, those relationships will be permanently damaged and unrepairable-fifty years of lost relationships is incalculable.
- Plaintiff has only discussed minor details with his wife and mother about what has been going on during the years in his family home. If he did, they would not want to spend another hour in their home of 22 years or travel anywhere and feel safe. His family home cannot be sold at any price with what has been done to it by the lawsuit prevention protection racket.
- Simply put, RICO defendants have turned plaintiff's life into a nightmare. His home into "a house of horrors" and an experimental "biological lab." Using many felony criminal racketeering methods to intimidate, discourage, delay and thwart investigations and lawsuits with the assistance of co-conspirators who aided and abetted and propagating their criminal activities on their premises.

- Impersonating a law firm's office to get intelligence from plaintiff
  
- **Co-defendants Conspired with RICO Defendants to Violate Plaintiffs Hotel rooms, Condos, Resort rooms and Cruise cabins repeatedly**
  
- RICO co-conspirators had two obligations to plaintiff and family while they stayed on their premises 1) to keep their paying guest safe from harm and 2) to guard plaintiff's privacy. They failed miserably by every metric measure. They gave PCE unfettered access to plaintiff's rented room beforehand and during his stay allowing them to spy on plaintiff and family, to film plaintiff and family, to drug plaintiff and to torture plaintiff while he occupied rooms. PCE commits these same crimes at plaintiff's home and at work.
  
- RICO co-conspirators are facilitators, participators and aid and abettors to the professional criminal enterprise criminal behavior to torments plaintiff and his family on their premises or properties. Plaintiff has never been accused of any criminal deeds or infractions on any of defendants or co-conspirator's

**premises or properties. Defendants and co-conspirators will not be able to legitimately answer this complaint with any credible evidence to a courts' satisfaction except to say we can get away it with all the money in the world.**

**1. 5**

- **From the time plaintiff made his reservation until the time he arrived on the RICO co-conspirator's premises, primary defendants and co-conspirators conspired using the lawsuit prevention protection racket Professional Criminal Enterprise (PCE) to unlawfully surveil, defame, harassed, tortured, drugged and criminally tormented plaintiff. Primary defendants had a premeditated detailed scheme for plaintiff then they were aided and abetted by co-conspirators. The Professional Criminal Enterprise work frantically and collectively with their co-conspirators to prevent plaintiff from accessing the US justice system, mainly counsel of his choice and to aid in obstructing justice with fraud. As the court will see, some of the co-conspirators are repeat offenders to this fraudulent criminal behavior by the lawsuit prevention protection racket (PCE).**

During the August 2019 trip and as he was checking out, he was told by the front desk, that he did not pay for his three-day stay and that he would have to contact the organization who paid for it to get a checkout receipt. The front desk personnel did not say who paid for his stay. But she did say that the only evidence of his stay at the hotel was his on file credit card. No evidence of his advance payment for the room. Plaintiff Wright detected a cover up of crimes and their collaboration of those crimes during August 2019 Labor Day weekend.**

ii. III. **FACTS**

**214) Plaintiff Darryl Wright was born in the US and resides in Marietta, Ga. where he and his family have lived for 30 years. Plaintiff does not want to be here in the courts. Plaintiff has never personally sued anyone and no one has ever personally sued him. Plaintiff is here because of he and his family's long term safety, sanity and wellbeing are at stake for the rest of their lives. Plaintiff and family are desperate to get this nightmare to a jury and behind them.**

a. 34

**215) Plaintiff is bringing this action against his former employer primary defendant IBM, an international company with global sales and services, who has finance a lawsuit prevention protection racket to intimidate, stalk, criminally defamed, harassed, criminally tormented, assaulted and tortured at work and at home while being employed by IBM. Even after retiring in good standing from IBM, IBM has not stopped criminally tormenting and stalking plaintiff using the lawsuit prevention protection racket scheme.**

**216) Plaintiff has done nothing to justify this treatment. Plaintiff does not want to be here but he has no choice. Collectively, with limitless funds, defendants and co-conspirators believe they will not be caught and believe that they can sustain this criminal enterprise indefinitely. They have done it for 16 years with funds from an endless revenue stream- their legal businesses.**

**217) During this temporary restraining motion, plaintiff will visually outline many RICO international, federal, state and local crimes committed by the lawsuit prevention protection racket funded IBM and Taco Mac. The evidence gathered during subpoenas, depositions and expedited discover will closely uncover additional felony criminal methods use to warrant primary defendants substantial investment into the lawsuit prevention protection racket using legal funds being laundered into organize criminal racketeering activity.**

**218) RICO defendants and co-conspirators lawyers are responsible for a sophisticated Professional Criminal Enterprise("PCE") constituted and organized to deprive a plaintiff and his family from their constitutional right to a civil proceeding by a neutral court without plaintiff being allowed to assemble the most competent counsel required to take this RICO civil action to a jury trial. RICO defendants are primarily using a criminal racketeering organization to discourage plaintiff from bringing forward this lawsuit to a court and jury.**

- 219) The Professional Criminal Enterprise(PCE) has all-encompassing tentacles into international, federal, state and local law enforcement agencies which they use to coerce, intimidate, threaten, extort, bribe or persuade proprietors to act against their own interest by giving unfettered access to plaintiff's hotel room, condo or cruise ship cabins where they spy, film, torture and drug plaintiff.**
- 220) RICO defendants and co-conspirators, who collectively have limitless funds through their legal business, set out to tenaciously, criminally torment and deliberately violate any criminal international, federal, state or local laws required to achieve their corrupt goal of tormenting and intimidating plaintiff against filing a lawsuit. RICO defendants IBM and Taco Mac are using a criminal enterprise lawsuit prevention protection racket to defraud the US justice system. By hiring a corrupt lawsuit prevention protection criminal racket to discouraged, delay or thwart legitimate lawsuits against them. Defendants and their co-conspirators have an incentive to cooperate with each other since they have the same goal to thwart lawsuits. It's an easy sell.**
- 221) Large and medium size business have a perverse incentive for hiring lawsuit prevention protection rackets law firms who can provide these services. Their clients know that lawsuit**

prevention protection racket would be involve using street gangs and mobs' methods but they don't think they will never get caught employing them.

222) PCE will commit any crime, tell any lie, pay any bribe, intimidate anyone, extort anyone and even use racial profiling as a tool to further their criminal enterprise activities.

223) Wherever plaintiff goes, he is being surveilled and tracked using his own electronics and other devices by PCE and with the assistance of the co-conspirators. PCE has the expertise to take control of co-conspirators computers and network, telephones and cell phone networks anywhere in the world.

224) These bold and appalling perpetrators are deliberate lawbreakers who even stalked plaintiff in the Atlanta Federal Richard Russell building on 10/16/2019 while he was there accessing the US Attorney's office on the 6<sup>th</sup> floor. They also followed him to through the corridors and elevators to the US District Court Clerk's office on the 22<sup>nd</sup> floor. Later from the Cobb county Vining's library, they hacked the FBI's website to prevent plaintiff from reporting their many crimes with in the federal building. Who does this type of surveillance of an innocent man in a federal building with its extensive security and ubiquitous cameras?

225) To further explain how PCE operates, they have hacked the top 5 Atlanta law firm's websites and intercepted calls to them from plaintiff. And PCE knows most lawyers or firms have some

security so if you haven't talked to someone at the firm to schedule an interview, you are not getting in to see a lawyer. The days of walking into a law firm from the street is over. One has to communicate to them first.

226) For 16 years or 28% of plaintiff's life, PCE has suffocated plaintiff and family privacy and their communications to anyone including counsel. This is why plaintiff is here today. Plaintiff and family are desperately ready to stop the nightmares and move on with their lives. Plaintiffs just want a normal life without defendant's and co-conspirator's criminal surveillance and crimes. Plaintiff wants PCE out of his and his family's life forever.

227) Plaintiff has done nothing to justify this egregious criminal behavior. Plaintiff and family do not have a criminal record and have never personally sued anyone. Plaintiff and family do not want to be here but they have no choice but the court system. Collectively, with limitless funds, defendants and co-conspirators believe they won't be caught and believe that they can sustain this criminal enterprise indefinitely. They have done it for 15 years with an endless revenue stream- their legal businesses

228) To halt this egregious criminal behavior by PCE, plaintiff is asking the US Court to propose a Temporary Restraining Order which commands defendants (PCE employer) and co-conspirators to cease all surveillance of plaintiff and family, cease all criminal activities of plaintiff and refer this complaint to a US attorney's office for investigation and prosecution of an organized corrupt criminal enterprise designed to perpetrate fraud on the US Justice system.

229) We suspect this service is being sold in the US by law firms to their well-heal corporate clients who can afford to pay daily, weekly, monthly and yearly expenses to sustain the cost of 24/7 unlawful surveillance of innocent plaintiffs using organize crime activities. Surveillance has been used to plan, plot and commit crimes and deprive plaintiffs their right to competent counsel to litigate legal disputes- fraud on the US justice system and plaintiff.

## NARRATIVE

I met with Darryl Wright at his home, 265 Lynshire Ct. He stated that over the last year he believes that unknown forces placed a device in his basement to cause him to be sick. He stated that his nose runs and he gets headaches and numbness in his face. He stated that he went to the hospital, saw his doctor, and went to a neurologist last week and they could not find anything wrong with him. He said that he also thinks someone put a gps tracker in his car to track his movements. He stated that there is no reason for someone to have issues with him but he believes that the corporation that runs Taco Mac restaurants is behind the devices. I asked if he has located any devices and he stated that he has not, but he continues to look.

His wife, Rochelle, was home and I asked her if she had any of the same concerns that Darryl did. She told me she doesn't go to the basement so she hasn't felt anything. I asked if Darryl was on any medications and they said no. I asked if he was under any psychiatric care and he is not.

I advised Darryl that the most important thing was for him to get help from the doctors and get a proper diagnosis for what's causing the symptoms. I told him that if he locates any devices he should call us back and we would investigate further.

On April 10<sup>th</sup> 2019 at 05:30 AM, I was restraint ~~on my couch~~ and ~~Attacked~~ while I lay sleeping. I could not move my head, ARMS or legs. The Assault lasted for 3 to 4 minutes. As I came ~~out of my back~~ to conscious, I could hear one of my basement door open then shut.

I Am not sure which. However, I Am sure it WAS the main yard door. There were two individuals. One stood in front of me and the other stood behind with his or her hands over my eye lids.

I Am not sure how they are getting in and out of my house ~~and avoid~~ at will and AVOIDING my 20 camera system. This was the 5<sup>th</sup> Assault this year.

---

My name is Darryl Wright. I live in Marietta, GA. I am 54 years old man. I have been working for my employer for 34 years. I have been married for 30 years. I have two adult children who are college grads. I have never been arrested therefore I have no criminal record.

For the past decade I have been hounded by a detective agency that has created a fictional character. I have been under 24/7 surveillance in my home, my car, at hotel rooms, restaurants and at work.

To maintain this sustained surveillances, they have created a fictional character used to convince local authorities that a crime will be committed in a hotel. The local authorities then convince the hotel to give them total access to my rooms in anticipation of a crime. Once they have access, they plant hidden cameras and gadgets in my room used to let me know they are there.

They have used this process many times over the years. Most times, I stay at a hotel once so it is no big deal for the hotel to violate my privacy. No crime is never committed so no foul for the local the authorities. These tactics have been successfully used at many venues. It travels well. They are very good liars. And You know they are filming for their clients in your hotel. Also, my date bypassed lobby security twice that week. I suspect she had help to do this. Why would you turn your hotel over to thugs and liars.

However, my privacy has been repeatedly violated over the years.

For your Sheraton hotels this has happened four times at three locations.

On January 4, 2018, I checked into the Sheraton Santo Domingo room#620 under reservation ##-###-#####. Hotel is located at 365 George Washington Avenue Santo Domingo, 102-05 Dominican Republic.

I left my room to purchase toiletries. When I returned, I was being pounded with water paste shots to my shoulder, back and head.

This happen at this same hotel in August of 2017. I checked in on Aug 30 and checked out on Sept 4th 2017.

 BWS report on Sept 2016.

~~I went to~~

I was there to see the Baltimore/ Buffalo Bulls ~~game~~ and the Washington Redskins Pittsburgh game. I later move to the BWI Doubletree hotel where they performed the same crimes.

Another An Older event took place at the Sheraton Old San Juan where I stayed for a Carnival Cruise I would embark on. They deployed the same tactics.

Before my recent trip I sleep  
decks with several Dominican women  
After arriving, both had reasons why  
they could not be with me. I called  
up ~~one of my old~~ So I met with  
one of my old girlfriend on Jan 4.  
On Jan 5 Friday I ~~walked~~ as I  
usually do I walk to the El Comodoro  
Got a manure and headed back to the  
hotel. I stopped at a popular restaurant  
called PACCOS. As soon as I walked  
through the door, a woman caught my  
EYE and I heard, I sat at the bar  
and ordered something to eat. She later  
came back sat near me. We talked.  
She told me she worked, was in school  
and had her own place. The what she  
told me was near since I have been  
coming to the Dr. However, it was the place  
I used when search the Dominican  
neighborhood.

I invited her to my hotel. As we got to know each other, I began to recognize her from an encounter two years ago. She had been at the Two years ago my buddy cameo and I were leaving ONNO's around 1am when she was there waiting. I remember leaving the night club walking out of the night club when I noticed this girl looking at my dick, I thought it was strange but we were leaving. Then I knew she was a prostitute.

She stayed with me the entire weekend. At least twice she eluded the hotel's security somehow to get to the elevator. If you are familiar with the hotel security and lobby, they have multiple personnel guarding the access to the hotel elevator. On Saturday Jan 6 she got to the elevator without scrutiny. She called me ~~on the hotel phone~~ my room using the hotel phone at the elevator. She did the same on Sunday Jan 7. We had been texting the entire time. I concluded that she wanted to avoid checking into the hotel and presenting her credentials. She did present her credentials on Friday Jan 5.

*and did not want to be detected* I suspect she worked for the private investigator by the question she asked and her observations of me.

To get to the elevator is not easily done. I suspect she had help in the lobby.

As ~~I leave~~ After initial prep, I go to liquor for some Hennessy. I ~~go~~ <sup>walk</sup> North or toward Galleria mall. I see no liquor run into someone with a Atlanta Braves hat. Asked where liquor, he takes me to a ~~space~~ off of Richmond Blvd. His name is Garnick who says he's from Atlanta. I give him \$10.00 and said goodby. I arrived back apt around 3:30pm. Assist in setup of party. Around 5pm I was carrying a couple of trays full of food to the garage elevator. As the door opens there stands a white guy with what looks like drug wolf dog. I was startled with all the food in my hand. He gets out of the elevator and said he will not bite.

④ All black party!  
 Party goes very well. At 11:30 pm we start  
 cleaning up. White boy, <sup>young</sup> ~~she~~ he says he was  
 from Dallas, Tx in town for game. He seems  
 to harrasing Patricia. Patricia tells  
 him to go with me as I carry back  
 trays. I enter the apartment with trays.  
 Not sure what ~~is~~ his role was?  
 I guess just to see check me out.  
 No obvious issue for the rest of  
 day.

We Uber to stadium on Sunday. Tailgate  
 went well except for Falcons losing in

**470) A Civil Racketeering Influence Criminal  
Organization (“Federal and Georgia RICO”)**

**1.44**

**471) Organized Fraud on the US justice  
system, plaintiff and family**

**1.45**

**472) Plaintiff is here to sue defendants for injunctive relief from a 16-year criminal crime wave surrounding plaintiff and family brought upon by RICO defendants IBM and Taco Mac law firm’s lawsuit prevention protection racket service. And we will soon be seeking damages cause by the mob organize crime services they deployed to discourage, delay and thwart plaintiff’s lawsuit and**

**prevent plaintiff from acquiring the proper counsel for the lawsuit. This is a complaint about greed, criminal and unethical behavior using a criminally constituted enterprise solely to prevent or delay lawful lawsuits. Every American should be disturbed about this illegal service being marketed in the United States against Americans. It's a monster to those who believe that the US justice system is fair to everyone and are not truly familiar with its procedures, rules and idiosyncrasies. We are here because of criminal fraudulent behavior.**

**1. 46**

**473) As the court will see, defendants collectively spent a lot of money, used some of their own employees and committed a lot of crimes to keep plaintiff from the courthouse. Fortunately, in America all corporations (public or private), has to account in some way for how they make their money and how they spend their money. This is not a like a CIA budget where money is dumped in with no tally sheet produced. Defendants spent a lot of money over years to disrupt plaintiff and his family lives. Plaintiff's team will be looking at the accounting of this money spent as to why corporations and its co-conspirators would spend so much money to prevent lawsuit by plaintiffs who posed no threat to the defendants. What is the reason to unlawfully surveil an innocent family 24/7 for years with no evidences of a crime or infraction? There will be no credible answer to this complaint by defendants except greed and that they could ultimately get away with fraud as long as the money continues to flow unabated.**

**1. 47**

**474) RICO primary defendants IBM and Taco Mac has finance and unleashed a Professional Criminal Enterprise(PCE) lawsuit prevention protection racket on plaintiff and his family to prevent plaintiff from accessing counsels of his choice in a timely manner. PCE clients collectively have limitless funds to sustain**

**this illegal racket. For plaintiff, it has been 16 years which is 28% of plaintiff's life he and his family have endured irreparable harm by the hands of RICO defendants.**

**475) The Profession Criminal Enterprise overwhelms local or state authorities in most municipalities. They are confident they won't get caught. For the most part, they operate as stealth criminal invaders. They do engage the locals but only if they have too. And when they do, they persuade the authorities or proprietors or managers or corporate officers that plaintiff is a really bad guy and we are here to help you with your new problem. Most of the conspiring defendants know who they are but cooperate anyway. Plaintiff suspects the conspiring defendants use them too, at some point. To defendants this is a necessary service sold by law firms with huge private investigator teams to offer their customers with limitless funds. A way to bring in lucrative short-term or long-term revenue streams of business for the firm. A service to illegally tilt the law in their clients' favor forever.**

**1. 48**

**476) Law firms and their clients know and understand what methods are being use. They know, for the most part, criminal behavior will be deployed to prevent lawsuits. Law firms who market this service of a lawsuit prevention protection racket risk being ostracize, sued and partners disbarred if anyone in law federal enforcement or the media finds out that are really perpetrating fraud on the US justice system. They know this service is illegal to sell in the US. They do it for greed only.**

**1. 49**

**477) The professional criminal enterprise sole primary purpose is to deceive everyone about their intentions, stifle any idea of an honest investigation into their criminal behavior even when someone sees a clear crime, PCE convinces them there was no crime since plaintiff is himself a criminal. And when they get**

**caught, PCE discourage, delay and thwart lawsuits until the statute of limitation runs out on their crimes.**

**478) The Professional Criminal Enterprise can thwart lawsuits in perpetuity with unlawful 24/7 surveillance of plaintiffs, in and around his home, at work, his cars (rented or owned), his rented hotels, cruise cabins, casinos, condos, national parks and LA fitness. They know where plaintiff and family are at all times.**

**479) PCE primary purpose is to defraud the US justice system and prevent plaintiffs from having their due process in court no matter what the reason (good, bad or warranted). PCE has committed many international, federal, state and local crimes against plaintiff such as attempted murder, threats of murder, assault and battery, kidnapping, bribery, mail and wire fraud, blackmail, extortion, torture, home invasion, bank fraud, unlawful spying, computer crimes and many more offences. They simply don't believe they will be caught.**

**1. 50**

**480) The PCE has stalked plaintiff all over the world using slanderous defamatory lies by creating a fictional character that does not exist and have never existed. Convincing the willing to aid and abet them in their criminal practices from spying on plaintiff, filming plaintiff, drugging plaintiff and torturing plaintiff with unfettered access to plaintiff's rooms and home. PCE actors' film all of their crimes and show them to their clients and conspirators to assure them of their controls and ability. The RICO statue was designed for this type of unlawful criminal enterprise. PCE believe they can get away with lawsuit prevention protection racket crimes.**

**1. 51**

## **2. Invasion of Plaintiff's home**

**481) The PCE has invaded plaintiff's dream home for at least eight years where they have spied on him, his wife, his mother, his children and any of his guest. Where plaintiff and wife have raised their son and daughter for 21 years. Both are college grads. One is now a doctor. Egregiously violating an American long-standing right to privacy in one's home.**

### **1. 52**

**482) With PCE's unlawful surveillance of his home, the professional criminal enterprise has tortured plaintiff for years. He has been exposed physical and mental torture such as sleep deprivation and Chines water torture. He has been restrained in his bed and media room couch and assaulted with feet torture. He is frequently being woken up by the heating of his kidneys and bladder to eventually force him to urinate. Plaintiff suspects PCE is testing him for drug levels in his system during intervals of drugging using his home plumbing system. All done to intimidate him from telling and filing this lawsuit against his former employer and others. In addition, PCE has performed years of psychological torture on plaintiff and his family which has cause physical, mental and emotional damages.**

### **i. 53**

## **b.Daily Torture**

**483) Daily drugging causing excessive urinating, bowel movements, eye watering, nose running, headaches, dizziness, coughing, sneezing and hallucinations, drugging of plaintiff and family, unlawful hypnosis of plaintiff and family and other human biological symptoms used to determine if enough drugs have been administered. They can also tell when plaintiff passes gas whether the drug has been fully administered. Plaintiff believe his home plumbing is being monitored by PCE. Plaintiff cigars have been spiked with an accelerant that causes it to burn fast, brightly illuminate with an awful smell. This spiking occurs at home, bars, restaurants, casinos and hotels to convince,**

**whomever is watching, that plaintiff is smoking something that he is not.**

**i. 54**

**484) PCE has intimidated or extorted or bribed plaintiff's lifelong friends to assist them in the torturing scheme in their homes. Some of those relationships go back 40 or 50 plus years. After this lawsuit is over, those relationships will be destroyed forever. Very difficult to resurrect those relationships considering the circumstances and pressure they were under to assist PCE at any cost.**

**1. 55**

**485) PCE has unlimited and unlawful access to plaintiff's home and cars 24/7. They have bypassed plaintiff's 21 surveillance camera system and ADT alarm security system. Three of those cameras are pointed at plaintiff while he sleeps in his media room where most of the torture acts takes place. Plaintiff has not slept a night or day without being watched for 15 years. An innocent man with no criminal record.**

**1. 56**

**486) There are four torture stations in plaintiff's home. His bedroom where he sleeps, his media room where he sleeps, couches in his family room where he watches TV and his car driver side seat. Those same locations are used in hotels, cruise ship cabins, condos and rented cars when he travels also.**

**1. 57**

**487) Plaintiff has recorded two strokes in the past eight years requiring emergency room service. One stroke occurred in IBM's office. The other was in his home. One common theme with those strokes is high blood pressure and plaintiff fainting. Plaintiff has recently acquired persistent high blood pressure measurements since 2019.**

**i. 58**

**488) Plaintiff can't use any of his electronics or computerize equipment in his home. Neither can his wife, who works from home, use any of her company's Anthem electronic or computerize devices or personal devices which all are compromised. Laptops, home phones, cell homes and tablets have all been hacked or compromised. His six-home network have all been hacked. DirecTV network, Swann camera system, ADT camera system, ADT alarm system, AT&T Wi-Fi network, Comcast Wi-Fi network, all have been compromised. Plaintiff has no certainty of his home information system infrastructure to safely and securely get through a pre-trial or post trial.**

**i. 59**

**489) When plaintiff travels inside the US and out of the country, some events plaintiff and family participate in are orchestrated and staged by PCE. PCE travels with a large team of specialist and leaves a large digital and financial foot print. Most times PCE stays in the same hotel as plaintiff and family which require lots of planning and cooperation with the hotels, condos, cruise lines and casinos. Probably using local authorities to convince co-conspirators to help them get access.**

**1. 60**

**490) With unlawful access to plaintiff's home and his electronics (laptops, home phones, workstations, cell phones etc...), PCE is constantly hacking plaintiff's home, personal and family's electronics. PCE hackers knows when plaintiff leaves/arrives, what flight he or family is on, what hotel they are staying in, what rental car agency plaintiff has reserved a car with and whether plaintiff or family is taking a HUBER taxi ahead of time. PCE has hacked all plaintiff travel APPs too. All electronics are hacked.**

**i. 61**

**491) Plaintiff has tried contacting counsels using his home phone many times. Those calls have been intercepted by the same person as a way of saying you don't know who are and you**

**can't stop us. Plaintiff has tried his cell phones. Those calls were intercepted by the same person too at home and away. When plaintiff uses his laptop computers or tablet to research counsels, counsels' websites have been hacked including the FBI's website. When he finds a counsel office address and phone number, the address is false and phone number intercepted. Plaintiff has bought multiple throw away cell phones. Those calls were intercepted too by the same person. At home and away from home. Plaintiff has used hotel's phones. Those calls are intercepted with the cooperation of the hotels conspirators. PCE has commandeered the hotel's entire telephone and communication systems.**

**i. 62**

**492) PCE has hacked the top five law firms in the city of Atlanta websites and intercepted calls to them. Those are King and Spaulding, Alston Bird, Troutman Sanders, Kilpatrick Townsend and Stockton and Eversheds and Southerland. Plaintiff has tried contacting them through their websites, by phone and US mail. Plaintiff has also contacted counsels David Boise, Ben Crum and the Cochran firm through their websites which were hacked and phone calls intercepted. Plaintiff has been to Davis and Bozeman and Morgan and Morgan law firms. Both say they don't handle case like mine. This why plaintiff suspects all large firms use PCEs at times.**

**1. 63**

**493) The PCE has turned plaintiff's home and life into a "house of horror" and a "biological experimental lab". Plaintiff home is unusable for pre-trial proceedings, trial proceedings and post-trial proceedings. Plaintiff can't sell his home since he would have to disclose all PCE's activities in it for the past 15 years. Also, plaintiff needs to know how PCE is getting in and out his home, where are all of the hidden cameras located, where are all the torture gadgets located, wants to know who are these thugs**

**that have been stalking plaintiff for 15 and who are the neighbors that are collaborating with PCE. Unfortunately, Plaintiff and family will have to relocate to another home and neighborhood for their safety and privacy which will require lots of funds for around the clock safety, privacy and security monitoring system, electronic and computerize equipment (new laptops, new phones, new cell phones) and a network to support the infrastructure for a secured home for plaintiff's family before and after the trial. They have totally destroyed plaintiff's and family's life.**

**1. 64**

## **494) Threatening to Kill Plaintiff Many Times since 2018**

**495) While on vacation in Santo Domingo, Dominican Republic, at the Sheraton Hotel in January of 2018, MLK birthday weekend, plaintiff noticed that he was not just only being spied on, filmed, tortured and drugged but that those filmed incidents were being shown to other girls for coaching and blackmail purposes and possibly worst. The girls who he met on that trip and entertained him meetings were staged. They were reciting quotes from him with past girls and quotes from past girls to him indicating that there was an orchestrated setup in progress in the Sheraton Hotel. There were clips and incidents from previous episodes that were being recreated right in front of his eyes. A sort of like**

**I've seen this movie before. PCE actors were not just performing the usual criminal protocols but staging them with local actors at the Sheraton Hotel Santo Domingo.**

**1. 65**

**496) After returning from his vacation, plaintiff logged onto Sheraton and Marriot website to report a complaint. Plaintiff entered in the complaint with his address and phone number and a suggestion that they could talk about plaintiff's experience in their hotels which similar events had happen before. Plaintiff never got a phone call or US mail response from defendants. He did get an email to an email address that he had never given when he logged the complaint and that he had just created months prior. The only time plaintiff used that email address was on his wife company's Anthem laptop the find how extensive their hacking was. He never used that email address any time before.**

**1. 66**

**497) A week later, plaintiff later tried complaining through the websites again-still no response from Sheraton or Marriott. However, on January 28th of 2019 plaintiff life was threaten in public at the Kennesaw, Ga Barret Parkway Bahama Breeze while at the bar and in front of at least 8 people who were at the bar or sitting at tables around the bar. The PCE representative said that if I told anyone what had been happening to me he would kill me multiple times and that he was from Mobile Alabama. PCE representative was so loud and boisterous that the bartender called the manager over. She asked if I wanted her to call the police. Without really understanding what had just taken place, I said no. I told her he is probably drunk and I didn't want**

**to get the police involve at the time. PCE representative was there with two other guys who he was buying drinks for. Later, he paid the bill with a credit card and left.**

**i. 67**

**498) Since then plaintiff has been threatening in public a total six times in 2018 and eight times in 2019 at his home. Those eight home threats he was restrained to his bed and media room couch while two thugs assaulted him. He was unable to move an inch while being restrained. Two other times he was restrained then foot tortured while being yelled at that I better not tell anyone what's been happening to me. Plaintiff is unable to determine how they are getting in and out of his home without his camera and ADT alarm system picking them up.**

**i. 68**

**499) After making several more attempts to contact Sheraton and Marriott via website and phone, plaintiff sent both a FedEx letter mail of the complaint and that I had been threatened after reporting the Santo Domingo incident via their website. The letter was sent to their headquarters titled **Security-no** response.**

**500) Wherever plaintiff goes, plaintiff is being tracked using his own electronics and automobiles. Those inside and outside networks are also being hacked such as every hotel, condominiums or resort he frequents, FED-EX, Georgia Department of Labor, Atlanta Library system, Cobb County Library system, Kennesaw State University library and Kennesaw State College of Professional Education computer lab.**

**501) These bold and appalling perpetrators are deliberate lawbreakers who even stalked plaintiff in the Richard Russell building on 10/16/2019 while he was there accessing the US Attorney's office on the 6<sup>th</sup> floor. They also followed him to through the corridors and elevators to the US District Court Clerk's office on the 22<sup>nd</sup> floor. Later from the Cobb county Vining's library, they hacked the FBI's website to prevent plaintiff from reporting their many crimes with in the federal building. Who does this type of surveillance of an innocent man in a federal building with its extensive security and ubiquitous cameras?**

**502) RICO defendants and co-conspirators are used to buying their way to success. Plaintiff and team are here to vigorously argue the merits of this case at trial. We do not want to normalize this criminal behavior by rich and well-heeled defendants in the US justice system. We look forward to an extensive discovery of all defendants and then trial.**

**503) Plaintiff will be asking for the following subpoenas soon:**

**504) This court has to understand that these criminals are trained US lawyers, practice US law in front of judges and juries and know all the idiosyncrasies of the US justice system. They are organize criminal perpetrators with a few incentives: avarice greed for perpetual lawyers' fees for them and their firms by using any means necessary to tilt the justice system in their favor and perpetrate fraud on the US justice system. They are, in fact, the perfect organize criminal enterprise who have tentacles in international, federal, state and local law authorities and believe they won't ever get caught using criminal racketeering methods. These lawyers are simply crooks who swore fidelity to the US justice system then got greedy and knowing designed an illegal service to sell to their wealthy clients. We are going after crooked lawyers, their clients and their investigators who execute an organize criminal racket to prevent lawsuits.**

**505) Plaintiff and family have incurred and is still incurring egregious and horrible irreparable harm by defendants and co-conspirators with their organize crime lawsuit prevention protection racket. These subpoena requests are just a handful of other subpoenas to come in hope of uncovering and stopping felony organize crime wave surrounding plaintiff and family.**

506) This is a civil lawsuit with organize crime implications by a greedy law firm and their lawyers who are supposed to act like officers of the US court. These requesting subpoenas are designed to get this lawsuit about the lawsuit prevention protection racket to a jury ASAP. The racket services were designed and constituted by law firms and their lawyers with their investigators being the foot soldiers using organize felony criminal tactics to achieve their goal of intimidating, discouraging, delaying and thwarting lawsuits.

507) The organize criminal tactics deployed and used are no different than any violent street gang or mob. The criminal racket has been mostly funded by a fortune 500 corporation IBM and Taco Mac using their annual revenues for 16 years. These subpoenas are designed to identify the architects and orchestrators of this criminal enterprise whose primary purpose is to tilt lawsuits in favor for their wealthy clients by defrauding the US Justice system along the way.

### **508) Subpoena #1**

509) IBM who has been unlawfully tracking plaintiff and family since at least 2005, invaded plaintiff's home and hotel rooms, condos and cruise cabins when he and his family travels all over the world since 2005.

**510) Documents, electronically stored information or tangible objects**

**511) Names and notes of all IBM employees who participated in the investigations at work and when plaintiff worked from.**

**512) Names and notes of all IBM employees who participated in investigations of plaintiff in other places such as LA Fitness, restaurants, cruises, condos and Kennesaw Battlefield anywhere outside of the workplace.**

**513) All communications and documents between IBM representatives and Taco Mac representatives since 2005 such as personnel, dates, times and what were the reasons for the communications relating to plaintiff and family.**

**514) All communications between IBM REPs and RICO co-conspirators since 2005. Particularly since November 2017 to September 2020 and the personnel who initiated those communications and personnel who excepted those communications. What were the subjects to those communications related to plaintiff and family?**

**515) The names of all law firms, lawyers and investigators who performed the investigations of plaintiff from 2005 to September of 2020.**

**516) The names of all law firms, lawyers and investigators billing and times sheet from 2005 to September 2020. How much money was spent with those firms to date and for what reason?**

**517) All investigators' field and office notes taken during the investigation of plaintiff and family since 2005 until September 2020. Particularly those taken with co-conspirators personnel.**

- 601) To the Law Firm of Davis and Bozeman:
- 602) Before reading this letter, review civil lawsuit 1:19-CV-5213 to put this incident in context.
- 603) My name is Darryl Wright who is suing my former employer. On 10/11/2018, I was in search of a lawyer. I found two on the internet and saw you and Ben Crump on TV representing other clients. Your law firm was one and Ben Crump was the other I searched out for. The address for you was listed as 4157 Flat Shoal Road Decatur, Ga Building suite #330 and the local address for Ben Crump (whose real practice resides in Florida) but the internet listed his Atlanta practice at 191 Peachtree Suite 4200.
- 604) When I arrived at 191 Peachtree Suite 4200, the banner and secretary says it was the law office of Morgan and Morgan. I asked if Ben Crump practiced there. The secretary said he does and suggested I use a conference room to call into their call center to discuss my case so someone could assign me the correct lawyer. I declined.

- 605) Later, I drove to your practice at 4157 Flat Shoal Road Building C office#330 where I interviewed with your paralegal about my case. The office appeared genuine with secretaries and a guy leaving in a wheel chair. The office had your banner "Davis Bozeman Law Firm." I sat down with your paralegal in a room where the door sign says that video would be taken during interviews.
- 606) She looked professional, gave me a Davis and Bozeman plantlet and asked if I wanted water. Your picture was on the plantlet and there was a lot information about your law firm and its history. As we began to discuss my case, she started taking notes. After about one hour and 15
- 607) minutes and telling her that I thought my life was in danger, she said she would talk to one of your lawyers about my cases.
- 608) She left the room for about 10 minutes then brought back a woman who didn't look like a lawyer but said she was. After asking me more questions, she said that your law firm only handled civil right cases not civil lawsuits. She had no suggestion of a firm who might handle my case. As I was leaving, I asked for a copy of her notes. She says she shredded the notes after she decline to take the case. So I left with your plantlet.
- 609) I recently filed a lawsuit 1:19-CV-5213 against my former employer and wanted to know if there were still notes and video of that my interview so that it could be reviewed. So now I am now subpoenaing your law firm

**for the notes and video since I recently learned it was my privileged items.**
